

Affinity Diagram

Class Search Improvements

Remove Institution	Default to next Term	General Search (for names/courses)
Add Min-Max slider bar	Hover to get more info	Should be able to see shopping cart at all times
Page utilization (reduce white space)	Should automatically link to DARs	Reduce the number of pages to go through
Auto-fill search box	Build Query before it starts search	Move loading symbol to middle of screen
Incorporate back button	Remove Reentry application if still a student	Add more official class info

Course Enrollment

Save the chosen semester for every tab	Auto-Enroll if class is open
Notify user about upcoming or past due dates	Links to external websites
Incorporate back button	Should automatically go to the next term

Home Page Improvements

Search for classes/schedule planner	Have past semesters in different links
Customization (add/remove/move)	Remember last used status

Other visited websites

Rate My Professor	Google
Reddit	Course Guide
UW Madison Grade Distribution	Facebook
DARs report	

Reasons people use Student Center

Add classes to their schedule	Pay tuition
Check Grades	Manage student loans
Look up advisors	Get DARs report
Print class schedule	Check class textbooks

General UI Issues

Large amount of white space on right side	No back button
Doesn't save semester you are working on	No customization of homepage
Confusing navigation menu	Drop down menus with only 1 option
Slow loading pages
